Establishing The Temple of The Presence!

Blessed Children of the Light, I, the Maha Chohan, address you in the Sanctity of the Presence of God. This Holiness you will come to know as you make room for the Mighty I AM Presence in your life.

It is your solemn Responsibility to erect a Temple of Light wherein the Presence of God may abide — your Presence as the Conductor of the Flame, of the rarefied and pure Light of God that sanctifies, creates, purifies, and establishes on Earth all that is intended for your holy and wise use. Indeed, to the Mighty I AM Presence there is no such thing as a mundane component to life. That which is mundane is due to the absence of the Consciousness of God ensouling that creation, firing it with the Divine Qualities inherent within the Mind of God, and establishing the wise use of God's Light for the benefit of the Flame upon the Altar of your Heart. For indeed, that Flame is Holy and Sacred, and your Temple should be worthy of that Flame.

The thoughts of the mind, the energies in your emotional body, the actions of your physical body — all these as the outer vehicles that you have come to know so well are provided by the Presence of God so that you are able to live, move, and breathe within these physical octaves in which you are required to incarnate; so that you might put on more of the Presence of God in these elements, establishing and erecting a worthy chalice, a Divine Life so that wherever your gaze lands you behold an aspect of God that you can appreciate. Wherever your thoughts are magnetized to, there you find the building blocks of the Heart's Desire of your own God Presence to draw forth from the pure Divine Elements the creations that God desires.

Then when you rest at the close of the day, you are able to enter into the fullness of the arms of your own God Presence, knowing that in each of the planes of consciousness you have established God Good. And for that, your Presence is most grateful and extends the Ray of Purification, of Resurrection, and Transmutation that you require throughout the night's rest so that you awaken refreshed and restored, ready to meet the new day and to again put on more of the Garment of your Presence.

Blessed hearts, many of you strive mightily to overcome the personal sense of limitation, the struggles of your life, your lack of knowledge, wondering when you will have Illumination's Flame impart to your consciousness more of the fabric of the Identity of your God Presence so that you can adopt those Patterns, weaving them into the Divine Garment that you are to wear, the creations that you are to bring forth, the accomplishments that you endeavor to achieve.

Blessed ones, rest in the arms of your Presence, knowing that if you strive, if you apply the Law, if you hold fast to the disciplines that you have been taught, there will come that time when, suddenly, you will have reached that state of awareness, that Purity, that Vibration that allows the Mighty I AM Presence to reveal to you more of your True Identity. Hold fast at each step along the way so that you will remember that God Vibration. Then, being able to retrace your steps, your actions, your thoughts, you will once more find yourself in that same Vibration; and, lo and behold, the Presence of God is revealed to you again, and you are secure in the knowledge that the Presence of God abides within you.

But is that the end of the story? Have you arrived at the completion of your tasks as the incarnate Son and Daughter of God? I think not. For you will come to realize that the more you know and learn of the Mighty I AM Presence, the more you internalize the Vibration and the Body Consciousness of that Presence, the more you will hunger and thirst to be filled with an even greater capacity to express that Presence! So you will begin to search your outer vehicles, assessing those habits, the things that you engage in, the responsibilities that you vow to complete. All of this you will begin to evaluate as the patterns of your life that you have established in this incarnation and ask yourself: Does this rise to a level of the Vibration that I experienced in the Presence of my own Mighty I AM? Is this the outpicturing that my Presence has held for me ever so long that I might manifest in this incarnate vehicle? Do I maintain the energy that allows the Presence of God to carry out in greater momentum the Desires of my Presence's Heart?

All of these questions will suddenly begin to flood into your consciousness. And you will discover that some of the areas of your life are indeed able to stand in the Light and the Vibration of your Christhood, while you will likewise discover some areas of your life that must be changed. And how will you go about that change? Will you immediately cease and desist those areas of spiritual service in your life which you have engaged in so very long — for which you have vowed to take responsibility?

Surely, the intricacies of life that you have engaged in for many incarnations are playing out, even as you hear my address this day. And you wonder how the Presence of God would extract out your momentums, the focus of your attention, your vibrations that are less than the Christ Light from the morass of the riptides of human thought and feeling. Certainly, you have had sufficient teaching of Cosmic Law to understand that when the Presence of God is present there is no problem, situation, or circumstance of life that cannot be resolved, transmuted, resurrected by the hand of your God Presence.

Many times you have searched through your own consciousness trying to decipher what is that Christ Discernment that would keep you from entering into patterns of life that are unhealthy or unwholesome. And yet, you find the sameness of mundane existence that you have known far too long reported back to your awareness. What you have not realized is that your consciousness has only reached as far as your outer vehicles. In order to raise the vibration of your consciousness and to reach into the Mind of God, you must enter into the Heart. You must know the Threefold Flame that abides upon the Altar of your Heart. You must expand that Flame to encompass and hallow enough of your life so that you are not drowning in human thought and feeling, but you have the spark of God Identity radiating into your outer vehicles — in the thoughts that you have, the emotions that you emit, the actions that you carry out.

Then, as you take up your work at the altar to commune with the Most High, you will mark in your awareness: What is my vibration? Am I ready to meet the Consciousness of my own God Presence? Have I established a forcefield about me that is scintillating with the charge released from my I AM Presence in response to my calls, my invocations, my prayers? Have I made room in my life sufficiently so that I am not restricted by the element of time, fixated in my consciousness in this physical octave? Or have I allowed the fullness of opportunity for my Presence to commune with my outer vehicles, the Heart Flame that I know so well, without interruption,

without suddenly having to extract myself from that Holy Communion and rush off to worldly affairs? And is this purported need of the hour so important as to take me from my Holy Communion?

You see, blessed hearts, I know well the questions that you have, the concerns, and the habits that have become so ingrained in your outer vehicles that you have lost sight of what is necessary to build your Temple and have it worthy of the Presence of God.

The disciplines that you have received here from this Altar will always be an area of life that you can take into the Secret Chamber of your Heart and have the fullness of your Communion with your Christ Mind, with the Flame of the Will of God, with the Love of the Presence and begin to weave a garment that, thread by thread, establishes an outer awareness of your own Christhood. That is where you begin. For when the disciplines of the Law are truly engaged in, it allows your Presence — in the timetable and cycle that your Presence desires — to reveal more to you, to come closer in the Rays of God Quality that stream forth so that you might adopt more of those God Qualities, establishing more of the Virtues of the Christ, honing and fashioning your Temple so that when the Presence of God desires to overshadow you, lowering the Holy of Holies, you will have prepared the place.

When you consider what is required for your own lifestream, you can begin to have an awareness of what is necessary on the world scene. For the entirety of the human thought and feeling that is present in the world today does not know of the Mighty I AM Presence. Some have a belief in God. But the energy of their life and the actions they engage in are contrary to anyone's definition of God. For the masses, it is enough for them to occasionally give homage to an unseen God that is impersonal, perhaps in some far-off world looking down on them.

But you, blessed hearts, know better. For you have understood that the Presence of God is right where you are. When you make holy the space in which you stand, live, and have your being, the Presence of God draws nigh. When you engage in any creative endeavor and you have established the Vibration of your Christhood to guide your hands, your thoughts, your actions, you have co-created with the Mighty I AM Presence; and through you, all manner of good works can come to the fore. When there are many Sons and Daughters of God fulfilling the same action of Cosmic Law and allowing for the greater impetus of God to shine forth, then you have the beginning of a Golden Age for the Earth!

All of these questions will suddenly begin to flood into your consciousness. And you will discover that some of the areas of your life are indeed able to stand in the Light and the Vibration of your Christhood, while you will likewise discover some areas of your life that must be changed. And how will you go about that change? When there are many Sons and Daughters of God fulfilling the same action of Cosmic Law and allowing for the greater impetus of God to shine forth, then you have the beginning of a Golden Age for the Earth!

Visualize, if you will, Holy Angels trumpeting the Light of God shining forth, standing in your midst as they expand and multiply the good works that the Sons and Daughters of God will carry out, and signaling the Great I AM of the Glory of God that abides in the Temple of your very own Presence! That Temple of the Presence begins with you, each one, holding fast to the Glory of God, establishing the Vibration that allows for the Fullness of your Presence to enter into the realms of the planes of consciousness that abide in the physical, the emotional, the mental, and the memory bodies; all the while, qualifying and charging the consciousness of those bodies in those planes of consciousness as the Temple of your Presence — radiating, creating, establishing more of God in the glorious Realms which God, The One, has prepared for your Mighty I AM Presence. It all belongs to God! It is the All-in-All, the Divine Estate established as the Temple of the Most High Living God.

Let your Heart be filled with the Joy and excitement to know that you are the hands, the feet, the vehicle of consciousness that your Presence has elected to incarnate in so that you might put on the Elements of the Great Pranic Breaths, established to unfold more and more of God. And it is the I AM that creates! It is the I AM that establishes the Presence in each plane of consciousness that will take command and be the Fullness of all that the Presence desires!

I trust that from this point forward you will think about your Presence each time you are about to conceive a thought. You will be aware of your Presence each time you feel the flow of Energy through you. And when you take up your work and you are in the active mode of fulfilling the responsibilities of your life, you will know that the Presence of God is the fuel, the motor, the Wisdom, the Consciousness that allows you to be able to carry out that work. And no longer are you engaged in mundane affairs, but each action in which you engage will receive a charge of Light from your God Presence having imparted to your consciousness a pattern of learning that has taught you something. It need not be great; but when you take all of the details of your life in the totality of learning that you are acquiring, they begin to speak directly to those things that your Presence has desired you to learn, for you to overcome, for you to bring forth, for you to be as the Presence of God in action. So there is no longer anything that is mundane. Instead everything has the Charge of the Presence of God upon it. And you are not engaged in activities that do not rise to the level of the Vibration whereby your Christhood can be present in your life.

The Purity of the Christ Mind, the Purity of the Divine Intent, and the Purity of the Divine Design that is manifest through you shows the level of Communion that you are able to engage in with your own God Presence.

Build the Temple of the Presence first in your own life! For then all else will come into manifestation in Divine Order. Then the expansion of The Temple of The Presence from this Altar will take place, magnifying the Lord and magnetizing the pure Heart Flames that will abide in the Presence of God that is here for all to know.

I, the Maha Chohan, commend you to a glorious journey of remembrance of your own God Presence and establishing the Temple of that Presence where you are!

Maha Chohan
