Enter into the Stream of the Great Solar Currents

Blessed Hearts,

It is my Joy to enter into the Stream of the great Solar Currents of the Life Force with you to begin the process of your inauguration into how these Currents operate, how the bodies of your vehicles must adapt to them, and how you must make room for them. For in the absence of desiring to receive this glorious benefit of the Allness of God Life, you will not know what it means to be the Christ. For it is the Divine Office of the Christ Consciousness to command Life! First to understand how to draw upon the Mind of God and then to send forth the Directing Intelligence to operate fully and completely from within out these great Currents that make up the Ocean Stream of God Consciousness.

We are embarking now on Teaching that you have not received to date as it relates to the Five Pranic Breaths and the Elemental Forces of Nature. For as you are most aware, there is a foundation of the understanding of the universal Principles of Cosmic Law that you first must have garnered and truly accepted as the Truth of your Identity in order to have a greater Momentum revealed to you of the very Consciousness of God that is, oh, so present.

As you begin to study and absorb into your conscious mind all of the Attributes of the great and glorious Ocean Currents, you will begin to see, blessed ones, how they are truly operating all about you, almost as though they are the Silent Watcher holding to the Christ Consciousness of Purity, of Wholeness, of the Edenic Blueprint of God, so that you might appropriate by the Threefold Flame of your Heart all that is within the Realm of God Purity to create and expand the very Presence of God in your life!

I, the Maha Chohan, am most aware of even the most delicate and slightest, subtle nature of these Currents that are present even in the crudest of outer form that is presented in each of the planes of consciousness. And when you begin to recognize the Truth that God's Identity is Absolute Purity, you can draw upon the pristine Purity inherent within the Great Ocean Stream and its respective Forces of the Universal Elemental Consciousness and expand it. That God Dominion is the Mastery and Attainment that you are destined to acquire via the expansion of the Threefold Flame of your Heart!

Oh, there are many of the Christ Virtues that you have learned now that allow for that Presence of the Christ Consciousness to be in the forefront of your conscious ability to touch this Ocean Stream, to breathe it in, to hear it, to see it, to perceive it through the varied forms of your own vehicles of consciousness. But what is now being revealed to you is the greater Cosmic Momentum of these Currents that are constantly in flow to and from the Great Central Sun, to and from the Allness of The One, allowing you "To Be." And in that Be-ness of God, you begin to express and to draw forth the actual Patterns of Perfection that your Mighty I AM Presence desires. Therefore strive to elevate your consciousness so that you are always at play in these great Currents.

Perhaps you did not even know they existed. For after all, they will not comingle with unreality or negativity, but they do hold in place, in check if you will, the Energy-in-Motion of the God Consciousness of Life that allows for the Christ Light to draw upon it and for all that is Pure in its Edenic Blueprint to continue to be nurtured and fostered, by, yes, you already know what I will say — by the Threefold Flame of your Heart!

Just as nature all about you — which has been referred to as the Generous Nature, referenced time and time again — is, blessed ones, the Abundance of God that has been released for you to draw upon, to become a part of the fabric of, all the while maintaining the Consciousness of the Mighty I AM Presence, so too that Buddhic Web of the Mind of God is always firmly intact and directing these Ocean Streams of universal God Consciousness.

If you were to desire to enter into the streaming of any of the Pranic Breaths, allowing your consciousness to flow along with the Great Current as it streams forth in all its Purity of the Life of God, then you would discover there would be changes in your vibration required. After all, those Currents are moving. They are not stagnant. Even the very rocks are moving with the Current. Each crystal of sand is a perpetual, moving, coming-to-be of Divine Life! The waters in the great oceans are outpicturing the current and the flow

of the Life Force of the Water Element that conducts the Power of God in its intrinsic nature allowing for the Energy-in-Motion to fabricate and form, fashion and move all that is Life!

When you begin to study your own body temple and what signal the Mind of God sends forth to your outer vehicles to accomplish, fully knowing that it is the Mind of God and not the intellect, you can begin to have a co-measurement of what is necessary in order to hold fast to the Mind of God and still move within these Currents!

In the beginning you will appreciate the fact that all of Nature in each of the Elemental Forces of the Pranic Breaths is constantly blessed by Elohim in a Purity that cannot be requalified. For indeed, that is how Life upon the Earth can continue to flow, to rejuvenate and regenerate, to propagate, to expand and contract, to allow for the great movement that is fostered in the consciousness of the Hierarchs of the Elements and performed by the elementals, all in concert with the God Direction of that Great Cosmic Being who holds these Currents in check. You have already heard his name — Okeanos!

During this coming Conclave you will be introduced more to this Great Cosmic Being and his Twin Flame and what they in their operation of Cosmic Light and God Consciousness are establishing moment by moment on behalf of the Elohim, of Helios and Vesta, of your own Heart Flame. For yes, blessed ones, your Mighty I AM Presence is most familiar with these Currents and the genesis of those Currents being held in the Consciousness by this Cosmic Being and his Twin Flame.

It is my great honor, as the Maha Chohan, to operate in the Realm of Chohan to see that all of the preparation on each of the Seven Rays of God Consciousness and the Pranic Breaths of the Five Secret Rays are properly and most carefully conveyed to you so that you will have the foundation upon which to begin to understand the movement of all that is the Consciousness of God: what establishes Life, how that Life is carried out, magnified by the very Presence of God via the Threefold Flame of your Heart and all of the planes of consciousness that hold the Vision, the conscious awareness, and the full spectrum of God Vibration stretching from your Heart Flame all the way to the Great Central Sun.

You can begin to appreciate how all this may seem daunting to someone who does not even understand that they have a Mighty I AM Presence that is the All-in-All, the God of their very Being that has not only established the Threefold Flame upon the Altar of the Heart, but that is likewise an undivided focus of the Allness of The One! In this Individuality there is the

desire of that Heart Flame to accomplish its Mastery utilizing these Great Currents. This is why you came into embodiment, so that you would more fully appreciate and become adept at living even now in these Perfect Realms, by communing with the consciousness of the Divine Mind that is the God Consciousness of Earth, Water, Fire, Air, Akasha. Then by mastering each of the subplanes of those Cosmic Elements, both in their more refined forms and their more gross textures, you will discover how to effectively shift the very vibration within all those subplanes by the Threefold Flame of your Heart!

Realize that it is the Command of the Consciousness of the Mind of God through the Threefold Flame that allows you to be able to quiet the seas of emotions within you, to heal and to still, to operate and manipulate the physical plane, to establish the thought patterns that are fixed within the Buddhic Web all the while they are operating under the Directing Intelligence that has already been accumulated in your Causal Body to be drawn forth for this very purpose.

Are you beginning to grasp the importance of understanding these Great Ocean Streams of Consciousness of God from the Heart of Okeanos? I recall well my first experience within them. It was a shift that was so dramatic, I thought surely I would lose myself in these great dynamic Currents! And yet the tethering of my Heart Flame to the Mighty I AM Presence would not allow me to be lost — for I knew I was safe! And I knew that I was secure. For I was within the Consciousness of God Life, all the while the Mind of God was holding me tethered to my Identity of the Individualization of God.

It was dramatic! It was awesome! And I could hardly find the words to express it! And yet in the land and culture of those ancient times in which I lived and given the meager teaching that had been released as instructed for mankind, I was far more limited than we are here and now. For today here at this Altar, the veils have been drawn aside so that you might begin to have a greater awareness of the Truth of Cosmic Law®.

It is not abundantly clear if this coming Acropolis will be re-released to the public. So you must consider wisely if you are ready for this next initiation and cycle. If you are, then move heaven and earth to be in attendance, to learn all that your Mighty I AM Presence desires for you. The Truth of Cosmic Law has always been and will always continue to abide.

But what is not evident is whether or not the consciousness of the initiate on the Path is ready. Have they truly understood the foundation of the planes of consciousness sufficiently to understand that there are those finer forces within themselves that need to be refined, charged with a Vibration of Light

and Momentum to be able to hold to the Purity that the Threefold Flame and the Rays of Light that the Mighty I AM Presence will release into their vehicles to elevate them in consciousness, in attainment, in mastery, in the ability to hold fast to the Charge of Light that we would release through them?

You must make room in your life for the Mighty I AM Presence and for the Cosmic Light that is here to assist you. As you touch these Currents you will know, intimately, that you have moved within these Currents as the Ascended Ones that are addressing you and allowing their Momentum to carry you aloft into the Etheric Plane of the Etheric City right above this Altar to help facilitate your journey that you are ready to embark upon.

Blessed hearts, once you have moved within these Cosmic Currents, no longer are you subject to the human consciousness manipulating you! For you know what it means to be in Purity. You have felt that Pure Stream that is foreign to the riptides of human thought and feeling. Therefore your consciousness is no longer drawn to them.

Life becomes enhanced with your expanded awareness of the Currents! No longer when you see a sunset in all of the beautiful hues, are you relegated merely to the outer senses of the brain's vision, but it is translated into the finer Vision imparted to each of the vehicles of consciousness being treated to the glorious hues and vibration that is cast by the Current that has allowed that glorious sunset to be exhibited for you.

You see behind the color! You see above the color, beneath and within the color! And the same is true of the Air Element, and of the mind. The same is true of the Water Element and even the waters of the physical. You feel the Power of the oceans. You understand what it means for the Currents of the glorious Elohim streaming forth governed by the Hierarchs of the Elements to conduct such Power so that you as an initiate working toward your adeptship can enter into that Power and know what it means to conduct this, the Ocean Stream, to hold it, to be at Peace in it.

Oh yes, it may be All-Powerful, but there is such Peace and Harmony within it you cannot even begin to imagine how the glorious Ocean Stream that feeds into the Water Element can be so powerful and yet so harmonious. Are you beginning to get a glyph of what is possible for you to learn? And I do say, "learn," blessed ones. For it has been so long since you were in the Octaves as the Mighty I AM Presence before incarnating into your first incarnation that you have forgotten what it means to be in the Fullness of the Presence of God.

Yes, you have had glorious experiences even in this incarnation with the Mighty I AM Presence, and this is not to take away from those. This will add to them to give you a greater dimension of the all-encompassing work that your Mighty I AM Presence can enter into and has so desired. So you must make your attunement with the Flame upon the Altar of your Heart.

Are you ready to embrace the next step, the next cycle of understanding the Five Secret Rays, the next Momentum of your ability to draw upon the Mighty I AM Presence and wear the vehicle of the Christ Consciousness unfurled as the Threefold Flame of the Heart? That is what you must answer and you must make your attunement with the Flame upon the Altar of your Heart.

I, the Maha Chohan, will be waiting here for you, as will Okeanos. Come! Enter into the Stream of the Glorious Ocean Currents of the God Consciousness of Life and know the Fullness of the Presence of God is truly where you are!

[Musical Meditation while the Maha Chohan releases the Ruby Ray Action from his Heart.]

That, blessed ones, is how you enter into the Third Secret Ray of Love. You have just felt the Action and the Current held by Kronos, streamed forth by Okeanos. Let that be just a taste, a touch of what can be experienced when you are within the Great Silence, entering by the Christ Consciousness into the Heart of God!

I AM Your
