

## Come Home to the Heart of Shamballa

**B**lessed Children of the Light!

I, Sanat Kumara, and the Holy Kumaras standing with me, as well as my own Beloved Venus, have entered into your forcefield so that you might have the full weight and Blessing and understanding of the richness that is afforded each of you in the Great Central Sun. We bring the Great Central Sun to you this New Year's Eve! And in doing so, we step up the vibration of the Earth so that the Fire of each of the Holy Kumaras may be reinforced in the Earth and the Love that comes from our Twin Flame union — my Beloved and I — may continue to expand the Flame upon the Altar of your Heart!

As the Secret Love Star flows into the Earth and as you have been the recipient of a two-year stepping up of the cycle of this magnificent flow, it is my great Joy to impart to you the continuation of this Flame that you might have the Fullness of its benefits for another year! Yes, beloved, you may continue to bask in the glow of the Golden-Pink Glow Ray from out the Heart of God in the Great Central Sun and receive the full Blessing and union of our united Flames in the Secret Love Star!

The Light of God that flows to each of you is tangible indeed if you will but reach up and touch it and allow for your Heart Flame to resound within your own body temple! Yes, beloved, the Threefold Flame of your Heart will expand each New Year's Eve that you are in attendance to my

Flame and that of the Lord of the World! This is the great Blessing of the coming of the Lord of the World. Yes, there is the cycle of the release of the Thoughtform of the Year so that all might focus the full weight of their attention in that single-eyed Vision that is needed to bring that Thoughtform into manifestation.

Consider, beloved, if you will, the great Blessing of the enormous Fire of the Heart of the Lord of the World! And then, when you add to this the Blessing of the coming of those Cosmic Beings who hold the focus of the Secret Love Star, it is no small endeavor! Each of you is given the opportunity to expand the very Flame upon the Altar of your Heart into the Cosmic Outpouring of this Service we render unto you! Consider, then, how you will continue to expand what you receive. How will you nourish it? How will you put your attention upon that Heart Flame, not allowing one Plume to suffer diminishment before the next cycle?

I fully expect that when we come together each New Year's Eve we will see those expanded Flames brighter than before! Yes, beloved, the cycle is here. Yes, cycles come and cycles go, but you need not lose one erg of Light, one erg of energy or momentum toward the expansion of the Flame in your life.

Consider how many embodiments you have had in the Earth and how many times you have spent a New Year's Eve in contemplation upon the Heart of the Lord of the World. Very few indeed when you consider the many, many lifetimes and the many years in which you have traversed the outer world.

You need not wander as the orphan any longer, for you have come Home! You have come Home to the Flame in the Heart of Shamballa. This is our great Joy at this time of the year when the doors of Shamballa are opened wide and strewn throughout its streets are the Flame Flowers of the essence of each lifestream holding a focus there — whether it is a student, an Ascended One or a Cosmic Being, an elemental or a great Angel Deva.

Shamballa is filled with the Light and the reverberation of the Music of the Spheres and all about is resounding in the rhythm and the tone of the Light of God! Shamballa reverberates that same tone, that same rhythm of the Light of the Secret Love Star. It holds fast to that rhythm so that as you tie into the Current released from the Great Central Sun of

this magnificent Love Star, you will hear the Music of the Spheres ringing on and on throughout the Earth! You will see the brilliance of the Light coursing through all who desire to have a fuller understanding of God Love, God Wisdom, and the action of the Threefold Flame. And thus the Light of God is all about you, there for the taking. Will you not take the time in your day to acknowledge and absorb every erg of our Light that is presented for your well-being, for your beauty, for your Joy?

Many upon the Earth are caught up in negative spirals that keep them from observing what is so very obvious to others. Because you choose to develop the clarity and the perception of God Vision and the understanding that God's Light shines forth in all of life, that same consciousness you anchor will begin to telegraph throughout the Earth. Even as we speak, there are those who are receiving this very Light, reinforced on this night, so that they might begin to understand even more of God in life.

The Holy Kumaras release the essence of the Fire of their Heart from their Holy Temple in all of the Seven Rays! My great Joy is to release the Flame of God Freedom! The Violet Transmuting Flame is a magnificent Flame, beloved, that each of you has learned so much more about in this Conference. And I tell you, as you begin to experiment with its understanding, proving the Fullness of what it can bring into your life, you will know what it is to be God Free!

It is my great Joy to hold that Seventh Ray focus in the Temple of the Holy Kumaras. Likewise each one of the Holy Kumaras has a significant part to play in the resounding of the essence of your very makeup in the Earth. Because of their great Service, you enjoy the freedom to understand all of the Seven Rays and to internalize each of these Rays. We Seven take the Fullness of our Heart Flames and extend them to the Holy Angels and to the Chohans of the Rays so that they might further bring the increments of our Fires into your life!

This is a great opportunity for you to begin to understand that the Holy Kumaras are your greatest advocates in the Purity and the Perfection of each of their respective Rays. Begin to associate their Rays with your lifestream. Call upon them! Now that you have their Name and their Flame, you may begin to associate more closely with their Consciousness and the release of their Heart!

My Beloved and I will continue to stand in the Great Central Sun and release the Light of our Heart Flames and hold open the pathway so that the Secret Love Star might continue to flood into the Earth. You may become so accustomed to our Flame that we would not dare take it away. We hope this is the case! For as you become more accustomed to this Light, the figure-eight flow from your Heart to ours will be established so intactly and so firmly that we will not be able to let go! This is our Desire! As we send forth the Ray from our Consciousness and our Heart and we hold that focus for you for a time, you will in time become an adept in that Flame and the responding current of your own Heart Flame will be able to rise up and meet what we send forth! This is why the Ascended Ones come. Not simply to shed their Blessings upon Earth or to share what they have, but to teach you, to entice you to taste for yourself what it is like to touch the Flame of God and to know the Light of God!

And as you become accustomed to our Light, the desiring for that Light will continue to grow and grow within you, until there is such a hunger that you must search out the way and the Mastery to manifest that Light in your own life! Then is when your own God Presence has accomplished a great feat indeed. For then you will begin the awakening process to your own internal Light. And yes, beloved, as you stretch forth those Pinions of Light from your own Heart Flame, you will touch the Heart of all of the Ascended Masters, and you will be able to direct your focus and your attention to one or another of the Rays depending upon which Ray's assistance you need at that moment.

This is how the Brothers and Sisters of Light throughout the Cosmos work together. Ours is a unified action. Devotion to absolute Unity in the Light of the I AM is the signature Keynote of the *Entire Spirit of the Great White Brotherhood of Light*. Furthermore we hold the focus of our Protection for The Temple of The Presence as the outer world Activity of this, our Brotherhood of Light. And we know full well that as you mature in the spirit of your own internal Light, you will have all that is necessary to become that Ascended One you have heard so much about.

Be assured we stand as close to your octave as we are permitted by Cosmic Law. Know that there are those of you who already have the necessary acceleration within your own world to enable you to leap up

into this Vibration of the Secret Love Star, to touch it, and assimilate it into your world!

We will enact the great Ritual from Shamballa, as I started so very long ago, by the lighting of your tapers. But it is only the symbolic outer lighting. What is really occurring, beloved, is that your Heart Flame is receiving our Light. Your Heart Flame is expanding. And as we enter into this Ritual, know that those inner actions are occurring!

*Sanat Kumara*

Public addresses to the Students presented in *The Voice From The Temple* have been prepared by the presiding Master for release in written form for our present use and for posterity.
