Keep the Flame Burning Brightly

Blessed Children of the Light,

You have entered into the Buddhist Consciousness of my Flame. Within this Consciousness you have clarity of mind. But most importantly, you have established the abiding Peace that allows for you to experience the unity of all that you are in The One. The thoughts that you might have, the beating of the physical heart, the emotions swirling round about, all are caught up into the swirling action of the Threefold Flame of the Heart, elevating you into the lofty state of awareness that the outer form is nothing compared to the Higher Form and Light of the Presence of God.

So much attention is given to the outer vehicles, it is a wonder that anyone ever knows of the Presence. And yet, the Flame upon the Altar of your Heart has reminded you, has captured your attention, and ultimately filled your outer chalice so that you have become aware. You have separated yourself out from the mass consciousness and adopted the Truth of your God Identity.

When I come and speak directly to that Heart Flame, you must be aware that there is a surge of my Light that occurs, a scintillating Fire that begins an active, swirling action that lifts your spirits, allows for the burdens of everyday life to be lifted off your shoulders, penetrates your consciousness to bring stillness so that the outer mind is not flitting to and fro, and you have the ability to allow the saturation of the Buddhist Realm to enter into your mind as the presence of your Christ Mind.

The Peace that is established within your emotions begins to take on greater importance. For you become aware that that is the power center of your being. For when you have not depleted your emotions and they are held in check, you can engage on the instant with the Mind of God, the flow of the Love of God, and the Purity that surrounds you. For indeed the very Presence of the Almighty would not send you forth into a wasteland, void of all of the pristine Perfection eternally held in the Mind of God.

Surrounding you is the All-in-All of God, but what remains are your outer vehicles. Are you able to sense the Allness of God with your outer senses? Have they been trained to look beyond that which does not hold to the Pattern of Perfection, piercing through the veils of maya and illusion to see the Beauty of God? Have your vehicles been trained to feel the flow of the current of the Presence, saturating the atmosphere about you, giving you Comfort and Love and the Harmony that brings forth wholeness, health, and well-being?

And then the physical body has the opportunity to truly move with those currents in the rhythm and flow of the Light of the Mighty I AM Presence, giving it Strength and yes, Courage. Because absent the Courage to move forward, many times you are at a stalemate in life, not able to enter into the many Dispensations afforded you — opportunities and open doors that the Presence has worked mightily to prepare for you. So as this Flame excites all that is good within you — to accelerate, to move forward in life — you begin to realize that God *is* Good and that Goodness is your Mighty I AM Presence.

I, Gautama, know well what many have said were the teachings of my era that *supposedly* were passed down by me. Many were passed down over generations by mere word of mouth, by what the consciousness of a devotee or a passerby could remember. But when those consciousnesses were comingled with the substance of unreality still pervasive within their minds, you can begin to see how I was many times misquoted. Consequently, the pure understanding of the Buddha was not held in the fullness of the charge of the intent of the Brotherhood of Light.

You must hold fast, even now, to what you receive in the Purity of the Charge of Light so that you will not comingle Cosmic Law with your misperceptions of what you think the meaning is. Allow the Flame upon the Altar of your Heart to continue to illumine you and bring an understanding of the meaning that is passed to you. For you are the one out of the many

who will have to pass on the Truth of Cosmic Law®, first and foremost, in the example of your life, then in what you do with that Teaching — how you convey it, how you live it.

The Fullness of the Light of your Mighty I AM Presence will always keep you in the Purity of the Truth of your Identity and how accurately you receive the Cosmic Law that you are given. But you must work mightily to hold onto it. Prepare your vehicles so that they do not spin out into the mass consciousness, absorbing into your mind and emotions distortions from those undetected influences of the mass consciousness.

O blessed hearts, there is much psychism in the world. Do not fall prey to it. For future generations depend upon you and what you will accomplish.

The Purity of the Flame of God shines ever brightly. That is the Light that we see round about you here and even in your own private sanctuary. For you invoke that Light, and it is that Light that serves the Flame upon the Altar of your Heart, that will teach, feed, and heal your vehicles of consciousness.

Let the Wholeness come forth and keep you all the days of your life so that when you are called to return Home, you will already be there in the Heart of your own Threefold Flame, overshadowed by your own Christ Consciousness and the streaming forth of the Buddhic Web of the Mind of God.

That is the Action which we, the Ascended Masters, hold in our Heart, our Consciousness, our Visualization for you so that you will not miss such a glorious opportunity that Life has extended to you by the Hand of God. All comes from God, you know: the very air that you breathe, the beating of your physical heart, the sounds you hear that are beautiful, harmonious, melodic.

When you allow your inner ear to attune to the inner spheres, you realize the soundless sound of the Angels, of the currents of Light and Momentum. And then that sound begins to mold and shape the patterns that you move in throughout your day, while occupying your physical body. Such is the integration with the Buddhic Realm that you are called to participate in — to live within! That is the manifest Glory of God!

Let the Fire of the Buddhic Web be ever in attendance to your conscious awareness, illumining your thoughts, conducting your affairs and your life, establishing patterns of wholeness, and knitting together the creative genius of your own God Presence streaming forth. For is that not the desire of the heart of many — to bring forth to the best of their ability gifts that will benefit all, most especially the Presence of God?

Let the gifts of your life and the fulfillment of your Divine Plan be placed upon the High Altar of your own God Presence. Continue to nurture that Communion from the beginning of a creative idea all the way to the manifestation of that ideal momentum or creativity. Hold fast the *Thread of Contact* with all that you have ever placed upon the Altar of the Most High. This, blessed ones, is an important key to your ability to truly stay within the Current of Light of the Presence while you bring forth into manifestation on all of the planes of God Consciousness what your Mighty I AM still desires of you. Let all your desiring be the desires of the Presence!

Hold fast to the Heartbeat of God that blazes upon the Altar of your Heart! Let the current of the swirling action carry you aloft into the Consciousness of your God Presence, allowing for the streaming patterns of the ideal life that you can live. Yes, an Ideal, perfect life is what the Will of God intends for you. But you must understand that *you* must make it so and *you* must live it. That is the glorious Gift that I, Gautama, have for you on this Celebration of Wesak: that you would know who you are and how special you are in the sight of God!

Let the Light that I stream forth keep you in this Momentum of acceleration all the days of your life and beyond into the Ascension! For yes, blessed ones, I see you entering into the Blessed Union with the Mighty I AM Presence, and I patiently await that day, all the while you are about the Work that your Presence desires.

Keep the Flame burning brightly! For that, blessed ones, is your life.

I, Gautama, commend you for reaching the Attainment that you have to consciously receive me. And I support you in your further acceleration in the Light.

Lord Gautama

Public addresses to the Students presented in *The Voice From The Temple* have been prepared by the presiding Master for release in written form for our present use and for posterity.
