## Enter into the Flame of the Heart

**W**hen you enter into the Flame of the Heart, you know Peace, contentment, fulfillment. You want for nothing, save to be in that Flame. And it is there that you begin to truly be filled with all the Goodness that your own God Presence has to bestow upon you. This Flame carries all the Attributes of your own God Presence and can transfer them to your outer vehicles so that you might keep the Flame for all time. For it was never intended for that Heart Flame to be sealed apart from your day-to-day life — rather to be all-infused into your vehicles as the governing action of the Mind of God imparting every direction, every detail of consciousness, every clarity of vision, the Purity of the Flame of the Mother Light, and the All-Consuming Love of God. All this, blessed ones, is the gift of the abiding Presence of your own Mighty I AM.

Far too many who have embraced a search for God, in whatever path may be familiar, become impatient, filled with doubt, and consider that perhaps they are unworthy. But when you have had the All-Consuming Flame of the Christ Light carry the Fullness of the Charge that your Presence desires for you to experience, then, blessed ones, you will begin to know that the forbearance of Patience can and must last an entire life, many lifetimes, as you refine and fashion your life to enter into this Flame of the Heart with greater regularity.

The lack of Patience, blessed hearts, is the downfall of many of even the most sincere students of the Light. They become weary of their spiritual devotions, if those practices are not truly engaging with the Flame of their Heart coursing through them, feeding them with the very God Consciousness

that is abiding in their Heart Flame at that moment. For it is only when the stream of Light and Momentum of God Consciousness flows forth in answer to your calls, to your devotions, to your contemplation in the Flame of God, that you are fed, refreshed, renewed, and resurrected to blend with the Higher Vehicles, so that your Presence may abide where you are.

Far too long have there been those who have ignored even the most intense promptings to change their ways, to alter their thoughts, their energy, their momentums and habits to make room for God. But the aimless wandering, like a tumbleweed upon the dry desert, moved along by every will-of-the-wisp of the mass consciousness, the outer vehicles continue in an isolated existence all their own, without the abiding Presence of God, without the direction of God, without the Love of God.

All the while you, as the devotee of the Light and of the Presence, have great appreciation as to how exactly you have begun to live a life of Peace and Harmony, of Patience and Bliss, of Purity, knowing full well it is because you have touched the Flame of God. You have allowed it to enter into your being, your activities, your thought patterns, your way of life. How sad it is to look upon so many of mankind lost in the wilderness when right there, ever close, is the Flame of God upon their Heart that they could receive into their keeping to refresh them, renew them, fill the hunger and thirst due to the absence of the Presence for so long.

I, Gautama, have observed in many generations how the Sons and Daughters of God will procrastinate, putting off those important practices of life that must be adhered to, represented in the Virtues of the Christ and the God Qualities of the Mighty I AM Presence. The cup of the Elixir of Life is fed by the Threefold Flame of the Heart of the Presence. It establishes the current that allows for your Presence to feed you daily, to ensure that you have greater clarity of Vision that you so require, the Love that you desire, and, yes, do require. For all of God's children require Love, for it is Love that knits together and anchors all the Qualities of God so that they can be actualized at any moment.

This Elixir of Liquid Light of the Flame allows you, blessed ones, to have transferred to you that unique Divine Pattern that is the Will of God for you and that pours forth from your own God Presence the Divine Direction that you are called to follow. There are so many who proclaim they have free will and can do as they please. But it has been said, time and again, free will, blessed hearts, obliges mankind to choose God, or not to choose God; to be in the Will of God or reject the Will of God; to have Purity or impurity.

All of the Qualities and Virtues of God have their human antithesis, and you, blessed ones, must learn how to discern by the Mind of your own God Presence and Illumination's Flame what is the Path decreed by your Mighty I AM Presence. If you choose a worldly path that is constantly fed by the astral plane, the multiplication of those unclean areas of life will continue to haunt your world. But for those who choose God, those who have a great desire to enter into Purity, Love, Divine Will, then, blessed hearts, that difference is as plain as night and day. For the Sun shines forth in all of its Divine Splendor when the Goodness of God is proclaimed!

Do not think for one moment that I, the Buddha, do not hear you say, "But I AM not worthy. I AM not pure." Do you hear what you are saying? "The I AM THAT I AM is pure, is worthy." THAT is your proclamation. That is your vow. Knowing that you have the Flame of God right where you are gives you permission to think the very best of your life, to draw upon the Flame, to become more of it. And see how there is a continual refining of the areas of thought, emotion, activities, and habits until they simply dissipate and fade away all that does not represent the Truth of the Identity of your Heart Flame. For there is no longer a desire propelling you into those areas that are fed by the astral plane and the mass consciousness. You have been freed by the Flame upon the Altar of your Heart to enter into God Good!

This practice, blessed ones, is not merely a practice for an hour's occasion of your week or even of a day. It is for all time. It is for you to be able to hold fast to the Truth of your Identity and not let go. And you cannot buy into the impatience that the outer vehicles may, from time to time, cry out as a way of distraction. For that is not the Truth of your Identity. They have masqueraded as the ruler of your kingdom long enough.

Pouring forth the Divine Light of the Mighty I AM Presence allows you to be steadfast in your acceleration of mastery and attainment throughout your incarnation. For there are many mountains to climb, many obstacles to overcome, many struggles to transmute, many areas of life that must be balanced and brought into alignment with that Flame upon the Altar of the Heart that I speak of. It matters not if you do not believe that you have a Flame upon the Altar of the Heart, for it is so. But the more you do believe, the more you do call it forth, do expand it by your conscious awareness, by your loving of that sublime flow that naturally takes place when you put your attention upon the Flame, the more you teach and train your outer vehicles how to accept this Flame of God.

This Love of the Heart is so contrary to the mass consciousness of most of mankind when you consider what fills their attention, what drives their activities, their expressions, what fills them throughout their day. If they are fortunate enough to have had the tutoring of their Holy Christ Presence from time-to-time, lifting the veil, nudging them toward the Flame of their Heart, the Angels abiding round about them and charging the atmosphere around them, then suddenly they will discover a new found desire for God Good. Then, blessed ones, they can begin to break free of those patterns of unreality and receive more of the Blessings of their own Mighty I AM Presence.

So you see, blessed ones, there is a natural progression that the God of Very Gods has established, so that for every Son and Daughter wherever they are, whatever the condition of their life, there is Opportunity. The greater the striving, the greater the Momentum of Light, the greater the Oneness, the greater the opportunity for them to be brought into the Teachings of the I AM.

You, blessed hearts, have worked mightily in your most recent incarnations to truly break free of those patterns of unreality. Now that you have, comes the real opportunity for you in this incarnation — gaining full Mastery with the Light that is entrusted to you and building upon that Mastery with even greater momentums of attainment in the Christ Virtues and God Qualities.

This past effort, blessed ones, is paving the way for the crowning event in the entirety of your incarnations. For up to this point in past incarnations, you have not had the open access to the Ascended Masters. And many times the accelerations of earlier lifetimes simply moved directly into your own Causal Body Momentum, serving to prepare the way for the next incarnation, and then the next, until you find yourself here. Now as the Ascended and Cosmic Beings draw forth from the Great Central Sun the Divine Light and Momentum of Godliness and bring it into the very atmosphere of your meditations, your attention upon their Flame, you truly are receiving Blessings beyond measure designed to carry you into the Ascension at the close of this life should that be the desire of your Presence.

It is my great honor to hold the Flame of the Heart tangible within your reach so that you might not pass a day absent the ability to draw upon your own Flame and have it expanded by my Flame as well. For my Heart's devotion to the Flame of God abiding upon the Altar of your Heart is so great that it naturally expands to encompass every Heart Flame upon the Earth.

How is this possible? Because, blessed ones, my Momentum of loving God streams forth and loves the glorious Mighty I AM Presence that you and all mankind are in Purity. And my Light affords you the opportunity for the opening of your Heart to receive the Buddha's Flame. Oh, it is not my Flame. It is the Presence's Flame. But I hold it dear for each one, expanding it, allowing you to be able to feel the Charge, the Radiance round about you of the acceleration and the spinning action that takes place to elevate your consciousness and your vibration and move you toward the ultimate goal of your Mighty I AM Presence for you, whatever that goal may be while incarnated. Of course, ultimately, that is to ascend back into the Oneness, into the glorious Mighty I AM.

*I, Gautama, seal you in this Flame and the ongoing rehearsal of the acceleration in your life until one day you discover that you are ascended and you are in that Flame of Glory forever.*

*Let the Light of God abide within you, be expanded throughout your life, and carry you along the Buddhic Web of Illumination to be guided by the Mind of God all your days.*

*Gautama*
