## Our Everlasting Golden Chain

A SERVICE AT  
SUMMER SOLSTICE

# Fiat Vestal Helicon

## Our Everlasting Golden Chain

Rejoice, blessed Torch Bearers of the Temple, and behold a new day in the Sun! A unique and timeless facet of the Dawning Golden Age of Beloved Saint Germain has stepped forth as the Celebration of a Moment in Eternity. Proclaimed on High and established upon Earth, this new High Holy Day is inaugurated as the Celebration, *Fiat Vestal Helicon*.

In commemoration of the Fiat of Almighty God – Let there be Light – *Fiat Vestal Helicon* invokes the divine memory of the Moment in Eternity when the Light of God first streams forth from out the Heart of the Great Central Sun establishing the Realms of Creation in time and space.

As the fused Causal Body Momentum of the *Entire Spirit of the Brotherhood of Light*, the Light of Golden Helicon, streams forth as a great River of Divine Consciousness and Momentum carrying aloft the High Ideals of the Golden Age - swirling, dancing, flowing, sparkling with the great effervescence and scintillating fire of the Mind of God. The Celebration of the Dispensation of the Unfed Flame of Golden Helicon, this Unfed Flame of the Dawning Golden Age, will be the hallmark of this joyous event.

Beginning at High Noon during the Summer Solstice, we will acknowledge, utilize, and celebrate the many Violet Flame Dispensations that have come forth from the Heart of Beloved Saint Germain. During this great Marathon of Violet Flame, you have the opportunity to resolve to put into the Flame, once and for all, those personal karmic momentums and records that have plagued you for incarnations. Embracing the assistance Saint Germain has promised to those who covenant with his Heart, we will invoke this All-Consuming Love of God, allowing for a greater momentum of the Ascended Master Way of Life to come to the fore in our individual lives.

An address from our Beloved Knight Commander, Saint Germain, will be the crowning moment of this Celebration, rejoicing in the Golden River of the Helicon at the culmination of our Violet Flame Marathon. You are joyously invited to join us here at High Noon at Morya House or online in this great fiery whirlwind of Violet Flame and streaming Golden Helicon.

### To the Vestals

THOSE priests which first the  
Vestal Fire began,  
Which might be borrowed from  
no earthly flame,  
Devised a vessel to receive the sun,  
Being stedfastly opposed to the same:  
Where, with sweet wood, laid  
curiously by Art,  
On which the sun might by  
reflection beat;  
Receiving strength for every secret  
part,  
The fuel kindled with celestial heat.  
Thy blessed Eyes, the sun which  
lights this fire!  
My holy Thoughts, they be the  
Vestal Flame!  
The precious odours be my chaste  
Desires!  
My Breast's the vessel which  
includes the same!  
Thou art my VESTA! Thou, my  
goddess art!  
Thy hallowed temple only is my  
Heart!

*Michael Drayton (1563-1631)*

# Twelve Stages for your Violet Flame Marathon

*“Yes, blessed hearts, you as Torch Bearers are raising the torch on high for the Flame of Freedom, and as that torch is raised you discover, wonder of wonders, the Golden Helicon will sweep into your vehicles of consciousness, clearing away certain debris, certain agitations, certain preconceived ideas that do not rise to the level of Christhood, and leave you mercifully with the presence of consciousness that is a seed of the Consciousness of an Ascended or Cosmic Being, so that you might begin to realize in the internalization of the Fire of God, how that Seed Idea that is Pure and Holy, sacred in all of its intent, will bring forth a greater expression of Freedom where you are.”*

*Beloved Saint Germain*

1. Identify firsthand with your Beloved Mighty I AM Presence, acknowledging your Presence as the Godhead Charioteer of your lifestream. As you know yourself to be God in action, you naturally withdraw all identification with the outer limiting, karmic conditions of your life or mistakes of the past.
2. Pinpoint with great specificity those conditions within yourself that you desire not only to be free of but to have erased from the screen of life – cause, effect, record, and memory.
3. Call to the power of the All-Seeing Eye of God to expose any karmic patterns you may be unaware of in your outer consciousness. You would desire to ask for the exposure by the Light of God of these blind spots to your own outer awareness, so they will no longer opaque your perceptions or adversely affect your world.
4. Surrender to your Presence those conditions you have identified as stumbling blocks, limitations, or karmic patterns in your world. As you surrender these specific conditions to your Presence, you may also surrender your entire consciousness, being, and world so that the Love of your Presence may purify and perfect every detail of your life. The Violet Flame cannot transmute that which you consciously, or unconsciously, hold on to.
5. Call upon the Law of Forgiveness to forgive and forget those karmic conditions and momentums within yourself. As shown as an example in the Decree, Calls for Violet Flame, on page 22, the invocation calls upon this Law of Forgiveness and the accompanying forgetfulness of all human creation.
6. Call upon the Law of Forgiveness on behalf of every other lifestream on Earth who is burdened by the same condition. When you expand your calls to include everyone else who may suffer from the same karmic limitation you wish to be free of, the Light goes forth to do its perfect work. For the Light of your Presence can transmute a billion records as easily as it can yours alone.
7. Build on your covenant with Beloved Saint Germain as one of his Torch Bearers. Your commitment enables him to assist you by focusing his Ascended Master God Consciousness of the Violet Flame on the very condition in your world that you have earmarked for transmutation. Write a petition to his Heart, to your own Mighty I AM Presence, and to the Lords of Karma detailing those personal karmic conditions that you wish to be rid of, asking for their assistance in victoriously overcoming them. This letter will be consigned to the flame and burned at the beginning of the Violet Flame Marathon.
8. Determine henceforth to abstain from those behaviors that initially created the karmic entanglement. Follow the words of Beloved Jesus when he taught: “Neither do I condemn thee: go, and sin no more”(John 8:11). Then strive to maintain the Purity of Consciousness established in your world as a result of this purification by the Violet Flame.
9. Adopt an attitude of profound indifference to those weaknesses in yourself requiring transmutation. A repugnance or even aversion to those weaknesses strengthens the connection to the very condition you do not desire.
10. Rivet your attention on the Perfection of your Presence. Live in the reality of your Presence, and constantly put that Perfection in the place of every lesser appearance and state of consciousness.
11. Be about the business of your Mighty I AM Presence, using your actions to initiate new cycles of Divine Purpose in your life. Fight negative karma with positive karma. Negative karma is a dynamic accumulated momentum, so you must invoke a more powerful rolling momentum of God Good through world service and the fulfillment of your Divine Plan in addition to your decree work.
12. Accelerate the overall frequency of your four lower bodies with the Violet Flame. This action of the All-Consuming Love of God is not just for balancing karma or eradicating records but to accelerate the physical, emotional, mental, and memory bodies in order for them to engage with the Resurrection Flame and the Ascension Current. This acceleration must continue to mount up each day until the final culmination of the Victory of the Ascension in the Light.
